Rocket

cut • fold • glue - tube body, cone nose and three fins

body tube

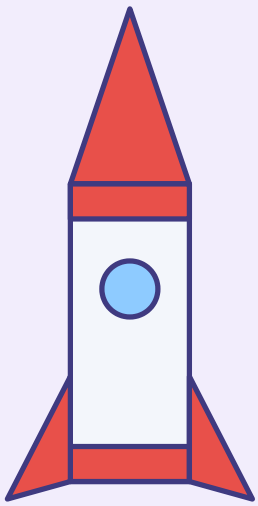

nose cone

fins (3 pcs)

Here's what you'll get:

height ≈ 14 cm

cut	paper 160-200 gsm
fold	print at 100% scale
apply glue	glue stick

1. Cut out the body, nose and fins along the solid lines. A grown-up helps.
2. Roll the body into a tube and glue the side tab. Roll the nose into a cone and glue its tab.
3. Cut the teeth on the ends of the tube. Fold the bottom teeth inward and leave them; glue the nose on top.
4. Fins: fold the gray tab and glue the fins to the bottom of the body at equal distances.
5. Stand the rocket on its fins - ready for launch!
