Blocky Snow Girl

cut • fold • glue - and your toy is ready

BODY

smaller cube

cut

fold

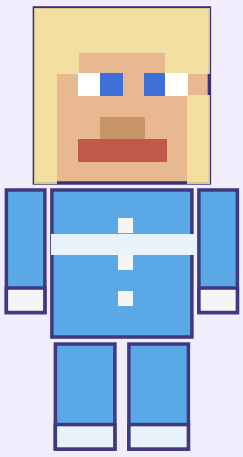

apply glue

paper 160-200 gsm

print at 100% scale

glue stick

Here is the result:

height ≈ 11 cm

1. Color the pieces if you like and cut them out along the solid lines. A grown-up helps with scissors.
2. Fold along all dashed lines. Glue the strip into a cube using the side tab marked "glue".
3. Put glue on the gray tabs at the top and bottom and close the lids. Do this for both cubes.
4. Glue the two cubes together as shown in the preview picture.
5. Glue the small parts with their tabs where shown in the preview. Your toy is ready!
