Paper Turkey Craft Template

Printable Thanksgiving craft for kids, ages 4-8

Color, cut out and glue: a paper turkey

How to make it

1. Color the feathers in fall colors: red, orange, yellow and brown. Color the body and head brown.
2. Cut out all the pieces along the lines. Ask a grown-up to help with small parts.
3. Glue the feathers to the back of the body in a fan. Glue the head on top of the body.
4. Glue on the eyes, the beak, the wattle and the feet. Write a thankful word on each feather if you like.
