Dear Grown-Ups

How to get the most out of this workbook

Who it is for

Children aged 3–5 who are starting to count. Every number from 1 to 10 gets three pages: meet the number with animals and a ten frame, trace it, and color the right number of pictures. Zero comes after ten, when counting already makes sense. Review games are at the end.

How to use it

- One page a day is plenty for young children: 5–10 minutes.
- Count out loud together and touch each picture as you count.
- Use a thick pencil or a crayon. Start each number at the top.
- On the “color” pages, some pictures stay white: count before you color.
- After each page, your child colors a star on the progress chart (page 3). The certificate is on page 43.

Skills in this workbook

Numbers	Meet each number: animals to count and a ten frame. pages 4–34
Pencil control	Trace the numbers 0 to 10. pages 5–42
Puzzles	Count and color, match, compare and find the path. pages 6–41

Answer key

Answers for grown-ups start on page 44. Check together and treat a mistake as a reason to try again.

Printing tip: choose “Actual size” (100%). Most pages print well in black and white, and you can skip printing the answer pages.
